On behalf of Weight Loss Specialists, thank you for your recent purchase of ThermoSlim, a truly remarkable weight loss product. Please read this important information about ThermoSlim.

1 HOW TO TAKE THERMOSLIM

ThermoSlim and ThermoSlim Accelerator are meant to be taken simultaneously. Each bottle of ThermoSlim and ThermoSlim Accelerator contains a 30-day supply of tablets when taken as directed.

Take one (1) ThermoSlim tablet at your convenience within the hour before eating each of your three daily meals. If you don't eat three full meals daily then eat two meals and a light snack so that you will be taking the three (3) ThermoSlim tablets each day.

Also take two (2) ThermoSlim Accelerator tablets each day, one within one hour before breakfast and lunch. Each ThermoSlim Accelerator tablet contains naturally occurring caffeine, less than the amount of caffeine in one cup of regular coffee. We suggest taking these tablets at breakfast and lunch so they will not keep you awake at bedtime. If you are caffeine sensitive take ThermoSlim tablets only and you will achieve your weight loss goals. Studies show

CAUTION: ThermoSlim is not for use by children, teens, or pregnant or lactating women. Consult with your physician before using this product if you are under a doctor's care for depression or have high blood pressure, diabetes, glaucoma, asthma, prostate enlargement or disease of the heart, kidney, or thyroid, or if you are taking an MAO inhibitor or any other prescription drug. Reduce or discontinue use if nervousness, tremor, sleeplessness, or nausea occur. Do not exceed recommended dosages. Keep out of children's reach.

This product contains Ma Huang, an herbal source of ephedrine approximately 2% by weight, and as such, should not be taken with anything containing ephedrine or pseudoephedrine or with any other product containing Ma Huang or ephedra.

Store in a cool, dry place or refrigerate after opening.

that ThermoSlim Accelerator potentiates the weight loss benefits of ThermoSlim, but that ThermoSlim by itself is highly effective.

Don't forget to drink plenty of water while on ThermoSlim; we recommend at least eight (8) large glasses of water every day. This will be very healthful and helpful while losing weight.

2 KEEPING IT OFF

Once you have reached your ideal weight we suggest you keep the unused portion of ThermoSlim stored in the refrigerator or in a cool, dry place. That way, ThermoSlim should have a shelf-life of up to one year. Weigh yourself every week, at the same time of the day. If you find you have gained more than two or three pounds, take ThermoSlim for a few days until you lose the weight. Then put ThermoSlim back on the shelf until needed. This way you are using ThermoSlim for weight maintenance only on an "as needed" basis.

Remember while losing weight and thereafter we recommend cutting down the fat content of your daily diet to about 25 grams of fat per 1200 calories. We do not recommend very low calorie diet programs. And we encourage you NOT to eat less than 1100 calories daily. (See inside for details.)

However, customers report losing weight quickly on ThermoSlim without following any special dietary program nor engaging in any increased physical activity over and above their normal daily routine. So you can use the ThermoSlim menu and food selection guidelines in the way that it is of best benefit to you.

On behalf of Weight Loss Specialists, I wish you all the best of success on the ThermoSlim program. If you need any additional information, please do not hesitate to contact Weight Loss Specialists at the address above. Thank you again.

Re: Nationwide Campaign
Learn How You Can Burn Off Body Fat Hour-By-Hour
(and receive a FREE GIFT)

Dear Friend:

Have you been invited recently to participate in the most incredible weight loss campaign?

Participation is by referral only, so please read this letter carefully, very carefully. You may not get another chance. Here's why...

If you would like to lose up to 10 pounds in the first 72 hours, dissolve up to 15 pounds in the first week, easily drop 30 pounds in the first month and then continue losing 50, 60, even 100 pounds or more, participation in this campaign is for you.

And you will receive a FREE GIFT worth \$34.95 for your help.
Why?

Well, I heard about a new and extremely powerful weight loss formula from some friends and colleagues. One of the doctors reported that 95% of his patients using this formula experienced outstanding weight loss. During a twelve week program, they lost an average of 24 pounds. One patient lost 40 pounds and all this in spite of the fact that these patients had a long history of obesity.

So, after reading the research on this powerful formula, I have decided to join forces in a campaign that will prove without a doubt, that this amazing formula is just what is needed to help solve the problem of being overweight. And listen to this...

In the past eighteen months 136,464 people have decided to participate in this extremely effective campaign. A sample of over 100 letters from participants who used this powerful weight loss formula indicated an average weight loss of 22.7 pounds in only a 3 to 4 week period. One woman reported losing 106 pounds in only 2-1/2 months. And there was no mention of exercising in order to achieve these successes.

I can understand a certain amount of reluctance in believing such incredible results. That's why, unlike many advertised weight loss

(go to page 2)

000004

page -2-

products, we enlisted the support of physicians, real doctors with their own license to practice medicine. Therefore, it would be absurd to give this formula such praise, unless all these claims were absolutely true.

So, how did these people achieve such remarkable results? Easy, with the amazing formula available in a proven product called ThermoSlim. The ingredients in ThermoSlim aid a person in super high speed weight loss by creating a condition called thermogenesis.

Thermogenesis according to the most highly respected sources in the world, is the process of igniting your internal body heat at a tremendous rate. This heat will push your body's calorie and fat burning ability into high gear, very high gear, without forcing you to suffer through terrible and unwanted hunger pangs. So you lose weight naturally, safely, and biologically.

Can you imagine the excitement and joy of having a slimmer, more attractive figure than you have had in years? Well now you can achieve those results in just a few short weeks.

And there's more good news. While ThermoSlim contains the most effective formula available to speed up thermogenesis, it is available without a prescription. Also medical research has shown that the ingredients in ThermoSlim can:

- * Stimulate the rapid-fire burning of millions of fat cells
- * Are especially effective for stubborn weight problems
- * Feature long-term effectiveness and fat-burning
- * Helps reduce body fat, not lean muscle
- * Lets you eat and live normally while you lose weight

reported that "within a month's time I've dropped 30 pounds. I'm also 3 dress sizes smaller. I actually could feel at times my fat falling off me."

So, if you've repeatedly tried to lose weight but have been unsuccessful, it may be because like most people, your body lacks the ability to burn fat properly. In fact, severe dieting can even hinder the fat-burning process. Because when you diet, your body thinks it's

(go to page 3)

page -3-

starving, so it actually starts to conserve fat and store it. And that may be why you can't lose weight.

ThermoSlim contains ingredients that enable your cells to burn calories more quickly, and more efficiently. As a result, you will shed years of accumulated body fat effortlessly.

With ThermoSlim, severe dieting restrictions or prolonged heavy exercise is not necessary. In fact, it's not even recommended. Further good news is that body fat was rapidly lost even by obese patients who did not reduce their normal intake of food. One patient...

reports, "I lost 16 pounds. I even lost weight through Thanksgiving and Christmas. I ate everything I wanted."

And several other participants lost 30 pounds (an average of 7-1/2 pounds per week) in just 4 weeks...without severe dieting and without exercising.

Naturally you may be concerned about the effects of such rapid and dramatic weight loss, and you should be. Well let me assure you that one of the doctors not only used ThermoSlim on himself, but he continued using it. And furthermore, he had years of success with his patients taking ThermoSlim, even before we began our nationwide awareness campaign.

So now, after years of doctor endorsements, and months of further successful nationwide involvement, it is time for us to prove to everyone in this country, that ThermoSlim is without a doubt the best way to lose weight. Remember, you don't need a prescription, there's no severe dieting or exercising, it's fully automatic, and has been extensively used safely and effectively by thousands of people.

ThermoSlim is available by referral only.
It is not, I repeat not, available in any drug store, supermarket, or health food store. It is not available through any T.V., radio, magazine, or newspaper ad.

So if you, or any of your friends or relatives would like to participate in helping gather thousands more testimonials, from people losing millions of pounds, keep reading. You will receive a FREE GIFT worth \$34.95 just for trying ThermoSlim. And after you have completed your supply of ThermoSlim, just fill out the response form enclosed with our shipment, and tell of your experience with ThermoSlim.
